Full Time Internship 02/2014 - 05/2014 Software Developer 05/2014 - 08/2014

intuitive software.

~During my employment, I developed Compliance Manager Mobile, an iPhone application that would allow maintanance employees across New Jersey's largest hospital system to view their current work orders from their iPhones. I used and gained experience with Objective-C, Python, MySQL, and working with a large corporate database over an ODBC connection.

### **PROJECTS**

### **URDining - iPhone Application**

**End of Testing Phase** 

Lead Backend Developer and Co-Founder

Available on the App Store

~An iPhone application for the University of Rochester dining services to manage the menu system and to get feedback from the student body.

### **Compliance Manager Mobile - iPhone Application**

4,500+ Work Orders Currently Recorded

Lead Programmer/Designer

~An iPhone application, "Work Order Managment System", for the New Jersey Hospital System, "Barnabas Health, Inc."
